**Baby Should be Fed
Naturally if Possible**

No substitute can give such good results as Nature's method—nothing can take its place. At times, however, it is necessary in warm climates to use Condensed Milk, and the mother should know that there is no purer, richer product than Highland Condensed Milk (full cream). Prepared from the milk of healthy carefully tested cows on the rich pastures of Southland, New Zealand, scrupulous care and cleanliness insure every step of the process of manufacture. Highland is the finest, rich, pure milk with part of the water removed by evaporation. When the time comes to wean baby, however, Highland Condensed Milk is of special value. The famous infant specialist, Dr. Eric Pritchard, points out that the caseinogen—the indigestible element for young children in fresh milk—is altered by the process of condensing and is more digestible—almost like a peptonized milk. He believes that Condensed Milk is of special value in tiding over the change from breast to ordinary milk, and thinks that the child should be given an increasing proportion of fresh cow's milk with condensed milk until gradual training of its powers of digestion enables it to take fresh milk entirely.

**ENTHUSIASTIC AUDIENCE HEARS
CHOPIN BY KATHARINE GOODSON**

The audience that greeted Katharine Goodson at her second piano recital last night comfortably filled the hall of the Mission Memorial building. The stage was tastefully decorated by the ladies of the Morning Music Club, under whose patronage this Chopin program was rendered.

The matter of the interpretation of Chopin has come down to us a subject for endless discussion. Miss Goodson is no exception to those artists who have their own ideas on the manner in which the Polish master should be played. While the effect was unconventional at times and perhaps even disturbing to those who have grown used to the usual rendition of Chopin, it was always stimulating.

A "one-man recital" is not a usual one, but the program that Miss Goodson had selected was so varied and full of interest that one did not tire. From the charming little Berceuse that opened the recital to the familiar Polonaise, Op. 53, which was played with a new vigor that transformed this conventional show piece of the advanced amateur into a true concert arrangement of Poland's national dance, there was artistry in every number she rendered.

As a final encore, Miss Goodson gave a charming little composition of her husband's, which was greeted with delighted applause.

**HIGH FINANCE
FILM AT BIJOU**

"The Raiders" a Thomas H. Ince Triangle-Kay Bee production, with H. B. Warner and Dorothy Dalton in the leading roles, comes to the Bijou theater as the premier offering this evening for the balance of the week. The stars need no introduction to Honolulu photoplay fans. The fact that Ince is behind the production should be sufficient guarantee of its worth.

The story of "The Raiders" deals with the double achievement of a stock broker's clerk in saving a railroad president from ruin and winning the president's daughter for his bride, all of which calls for heavy dramatic as well as romantic action.

Wall street and its money kings permit of considerable license on the part of the producer. None of this license is overlooked by Ince and, as a consequence "The Raiders" should prove a strong drawing card.

**HAWAII UNFOLDS
WAR TIME FILM**

Virginia Pearson and "The War Bride's Secret" have been anxiously expected by patrons of the Hawaii theater. Both have arrived.

Jean MacDougal, a bonnie Scotch lassie, is secretly wed to Colin Douglas a short time before the latter leaves for the war zone. She hears that he has been "killed in action" and is thereupon compelled to turn elsewhere for a father for her unborn babe. Robin Gray, a wealthy Scotch farmer, s a love with Jean and takes her as his wife. He believes the child to be his own and is happy and contented with wedded life.

Then comes the return of Colin and, without any words of explanation being offered Robin sees the truth and leaves the couple together after providing for the child in a manner that would be appropriate were it his own.

**GAS IN THE STOMACH
IS DANGEROUS**

Physicians Recommend the Use of Magnesia for Quick Relief.

Sufferers from indigestion or dyspepsia should remember that the presence of gas or wind in the stomach invariably indicates that the stomach is troubled by excessive acidity.

This acid causes the food to ferment and the fermenting food in turn gives rise to the noxious gases which distend the stomach, hamper the normal functions of vital internal organs, cause acute headaches, interfere with the action of the heart, and charge the blood stream with deadly poisons, which in time must ruin the health. Physicians say that to quickly dispel a dangerous accumulation of wind in the stomach and to stop the food fermentation which creates the gas, the acid in the stomach must be neutralized and that for this purpose there is nothing quite so good as a teaspoonful of pure bisurated magnesia taken in a little water immediately after meals. This instantly neutralizes the acid, thus stopping fermentation and the formation of gas, and enables the inflamed, distended stomach to proceed with its work under natural conditions. Bisurated magnesia is obtainable in powder or tablet form from any druggist; but as there are many different forms of magnesia it is important that the bisurated which the physicians prescribe should be distinctly asked for.—Adv.

**LIBERTY BOOKS
DICKENS DRAMA**

Once again Charles Dickens holds sway at the Liberty theater, commencing this evening with "Great Expectations," Louis Huff and Jack Pickford appearing in the leading role of Estella and "Pip." This pair of stars created considerable of a sensation for their clever work in Booth Tarkington's delightful "Seventeen."

While Pickford originally won fame as the brother of dainty Mary, he now stands on his own footing as a clever motion picture artist.

"Great Expectations" is peculiarly Dickensque, teems with the fervor of youth and pulsates with emotional situations. The book is too well known to need repetition. The adventures of Pip are most entertaining. There is some possibility that this feature may not reach port in time to be presented this evening, in which event "The Dollar and the Law," featuring Lillian Walker, will be the offering for one evening only. "The Diamond From the Sky" will also be a feature offering for the remainder of the week.

Only two were found by the nurses last month.

**GADSKI, HURT AT
CRITICISM, QUILTS**

Mme. Johanna Gadski, the prima donna soprano of the Metropolitan Opera Company, announced recently her decision to withdraw, for a time at least, from opera in New York and from the stage on which she has spent the greater portion of her career. In a communication addressed to the American public, she gave her reasons for the step. As a leading German star she has in some quarters encountered personal criticism growing out of the war between this country and her own Fatherland. Her statement reads:

"I feel the time has arrived when I must defend myself once and for all in the campaign which was begun against me after an alleged interview in 1916.

"At that time I thought it beneath my dignity to make a denial—and was unfortunately advised to remain silent. Lately, however, I have been again too outrageously and unjustly attacked, so that I feel compelled in justice to myself and my many friends to contradict these falsehoods and calumnies.

"I have with emphatically deny to have ever said, done or even felt anything against this country, or any of its representatives.

"My career was practically started and made in the United States, and who knows better than I what I owe to this my second home? I feel that under the prevailing conditions it is perhaps better to withdraw from the present from the Metropolitan stage and ask the public to accept this statement from me as final and to resent any more comments about me personally, as such might lead to further misrepresentations.

"Hoping with all my heart that the numerous friends whom I think I have made in these many years of earnest work will continue to believe in me and will remain my loyal friends, as I remain theirs, with sincere gratitude.—Johanna Gadski." The prima donna was born at Anklam, Prussia, in 1871, and educated at Stettin. In 1892 she married Captain Hans Tauscher, who was for years a representative of German munition makers here, most recently agents for the Krupp, and who was acquitted by the courts in the Welland Canal case.

**HOLD FLAG DAY
PROGRAM TONIGHT**

Location of platform and grandstands for the Elks' Flag Day exercises in the capital grounds beginning at 8 o'clock tonight has been changed. Instead of being in front of the capitol steps the ceremonies will be held near the bandstand in the makalewa corner of the grounds.

The seating arrangement is also slightly changed. Veterans of the wars and members of patriotic societies will have the front rows of the makalewa section with the Elks in the mauka section. Speakers, officers of the Elks lodge, city, territorial, guard, government, army and navy officials will be seated upon the platform.

A feature of the services promises to be a huge floral Liberty Bell, fashioned out of roses, violets and lilies into the national colors. All patriotic citizens are invited. The Hawaiian band will begin playing at 7:45. United States District Attorney S. C. Huber delivers the occasional address.
